

## Real Estate Services Team, Inc. (REST) Signs National Contract With What's Working, Inc.

Author and green building expert, David Johnston, is one of the pioneers in the green building movement, transforming the way we think about building. His company, What's Working, Inc. is headquartered in Boulder, Colorado and through his consulting and training programs has influenced the construction of tens of thousands of green homes built from coast to coast. His approach to green building has been embraced by municipalities, homeowners, building professionals and sustainability advocates nation-wide. Johnston's Nautilus Award-winning book, *Green Remodeling: Changing the World One Room at a Time*, has been hailed as the definitive guide to green remodeling techniques. His current book, *Green from the Ground Up*, published by Taunton Press is still a bestseller on Amazon.

*David Johnston, President  
What's Working, Inc.*

David's Course, based on "Green from the Ground Up" has served as the foundation for the Green Advantage Certification for those who wish to be certified in Residential Green Building. The demand for a green building course that teaches the nuts and bolts of practical, energy efficient and affordable green homes and remodels has exploded across the country and David's course is the premiere authority on green design and construction.

*Ron Langley, CEO  
REST*

In light of this demand, What's Working, Inc. has selected Real Estate Services Team, Inc. (REST) to be the lead training arm for the Green Advantage Certification Prep Course in the Southeast Region. In addition REST will conduct train-the-trainer courses across the nation and manage the training activities for all "Green from the Ground Up" trainers. Heading up this initiative will be Ron Langley, CEO for REST and Dutch Stamey, an award winning trainer and speaker, and Chief Operating Officer for REST.

*Dutch Stamey, COO  
REST*

REST, headquartered in Charlotte, NC, has been in business since 1994 and is considered an authority on building science, building forensics, indoor air quality issues, and green building. Real Estate Services Team's staff and strategic partners hold numerous certifications, licenses, and expertise in the areas of industrial hygiene, mold remediation, green building, infectious disease control, structural engineering, building science, building forensics, indoor air quality, and inspections. Their website is [www.ucanrest.com](http://www.ucanrest.com).

For more information on becoming certified or becoming a trainer visit [www.ucanrest.com](http://www.ucanrest.com), [www.whatsworking.com](http://www.whatsworking.com), or [www.greenbuilding.com](http://www.greenbuilding.com) or contact REST directly at (704) 846-0111 Ext. 232.
